PROFESSIONAL SUMMARY

Results-driven Software Engineer with ~2 years of experience at LTMindtree spanning quality engineering and transitioning into frontend development. Proficient in Java, Selenium, React, and Node.js with a solid foundation in SDLC/STLC. Actively expanding expertise in modern front-end and back-end technologies. Certified in GitHub Copilot Fundamentals. Seeking a developer role to build scalable, high-quality software solutions.

TECHNICAL SKILLS

Languages	Java, JavaScript (ES6+), HTML5, CSS3
Frontend	React.js, Responsive Design, Component Architecture
Backend	Node.js, REST APIs, Express.js
Testing	Selenium WebDriver, JUnit, Test Automation, Regression Testing, Functional Testing
Tools	Git, GitHub, GitHub Copilot, VS Code, JIRA
Concepts	SDLC / STLC, Agile/Scrum, CI/CD fundamentals, OOP, Data Science

PROFESSIONAL EXPERIENCE

Software Engineer – Quality & Automation

Apr 2025 – Apr 2026

LTMindtree

- Design and implement automated test frameworks using Java + Selenium, reducing manual regression effort by ~40%.
- Develop reusable test utilities and page-object models to improve maintainability and reduce code duplication.
- Collaborate with development teams during sprint reviews to identify defects early in the SDLC, improving release quality.
- Apply automation best practices including data-driven testing, CI integration hooks, and structured defect reporting.
- Leverage GitHub Copilot to accelerate test script development and enforce coding standards across the QA codebase.

Quality Engineer

Nov 2024 – Apr 2025

LTMindtree

- Validated end-to-end application functionality across web and API layers; maintained defect logs in JIRA.
- Actively participated in test planning, test case design, and sprint retrospectives in an Agile environment.
- Contributed to knowledge-sharing sessions on automation frameworks, elevating team capability.
- Maintained high quality standards through systematic regression and sanity test cycles before each release.

Graduate Apprentice – Software Testing

Aug 2024 – Nov 2024

LTMindtree

- Completed structured training in Java, Selenium, and software testing methodologies within SDLC/STLC frameworks.
- Assisted senior engineers in test execution, defect documentation, and test environment setup.
- Built foundational knowledge in automation basics and contributed to test data preparation.

PROJECTS

Portfolio Website · React, JavaScript, CSS3

- Designed and built a personal portfolio site using React.js with responsive UI and component-based architecture.

Test Automation Framework · Java, Selenium WebDriver, JUnit

- Built a page-object model (POM) based automation framework for a web application with cross-browser support.
- Integrated data-driven test execution to cover multiple input scenarios with minimal code changes.

EDUCATION

B.E. – Electronics & Telecommunication Engineering with Data Science Honors

2019 – 2023

[Dr. D.Y. Patil Institute of Technology, Pune](#) | SPPU
